

WATERPROOF TOUCHLESS SENSOR EXIT BUTTON

CLOUD-BASED ACCESS CONTROL SYSTEM | MOBILE ACCESS

EP-NTB100WP

A waterproof touchless exit button is a type of device that is used to unlock a door or gate without requiring physical contact. It typically consists of a sensor that can detect the presence of a person or object, and a control panel or other device that is connected to the door lock mechanism.

The perfect solution for modern, hygienic, and secure access control. This innovative device combines cutting-edge technology with durability to create a seamless and touch-free exit experience.

EP-NTB100WP

FEATURES

- Waterproof Design
- Touchless Operation
- Infrared Sensing Technology
- LED Indicator Lights
- Durable Construction
- Easy Installation:

SPECIFICATION & DIMENSION

Model:	EP-NTB100WP
Dimensions :	86L x 30W x 15H mm
Power :	DC12-24V
IP Rating:	IP68
Output Contact :	NO/NC/COM
Mechanical Life :	500,000 Tested
Mounting Way :	Surface Mount
Material :	Aluminium alloy
Weight :	0.058Kg
Operating Temperature :	-20° ~ 55° C (14°~131°F)
Operating Humidity :	0~95% (relative humidity)
Sensitive Distance :	3-15cm (Adjustable)
Led Indicator :	Blue LED (Standby)/Green LED (Active)
Time delay :	0.3~30s
